CP3019 Sale Rd Reconstruction – Design Phase

This proposed design includes widening of the roadway for 2 12' travel lanes and one 14' turning lane from Holly Hill Rd east to Canal Street. This will be a concrete curb and gutter section to match with the existing westerly portion.

Engineer: Aillet, Fenner, Jolly & McClelland, Inc.

Start Date: September 2012
Completion Date: March 2013
AFC: \$3,347,834
Designer's Fee: \$194,977

CP3051 City Wide Striping

Restriping of City Streets

Engineer: Lancon Engineering

Start Date: July 2011
Completed Date: August 2011
AFC: \$ 455,000
Designer's Fee: \$37,600

CP3074 New Transit Facility

This project consists of the complete renovation of an existing 12,600 square foot building as well as the new construction of bus transfer canopy, pavilion, fountain, and associated paving. All exterior cladding will be removed and replaced with metal stud framing and brick veneer. New electrical and mechanical systems will be provided. Site work includes demolition of all existing paving and canopy structures and paving/paver work. Alternates accepted: 1327 sq ft open air canopy, water fountain and associated paving and build out of the second floor.

Architect: Jeff Kudla
Contractor: Keiling Construction

Start Date: August 2011
Completion Date: Oct. 2012
Bid Award: \$3,280,000
Designer's Fee: \$225,957

CP3126 City Hall Window Replacement

Engineer: D. W. Jessen & Associates, L.L.C.

Preliminary Start Date: April 2011
Preliminary Completion Date: February 2012
Bid Award: \$592,185.00
Engineering Fee: \$38,983.00

CP3092 Traffic Upgrades- Design Phase

Signal modernization at the following four intersections: 5th Avenue at Prien Lake Road, Kirkman Street at 12th Street, Kirkman Street at Alamo Street, Lake Street at 18th Street.

Engineer: Lonnie Harper and Associates
Contractor: TBD

Preliminary Start Date: TBD
Preliminary Completion Date: TBD
Funds Available for Construction (AFC): \$440,000.00
Engineering Fee: \$35,669.65
Total Cost Estimate: \$476,449.00

CP3128 WWTP – B/C- Design Phase

Removal from service of existing Plant B/C; new pump station to divert flow to Plant D, and modification and structural repair to existing influent pump station (if required).
New force main from the B/C pump station to the 54" influent line of Plant D, manifolding of pump stations within Plant B/C service area with the new force main to divert flow to Plant D.

Engineer: Meyers and Associates
Contractor: TBD

Preliminary Start Date: TBD
Preliminary Completion Date: TBD
Funds Available for Construction (AFC): \$6,875,000.00
Engineering Fee: \$439,411.00
Total Cost Estimate: \$8,851,911.32

CP3141 Bilbo Street Reconstruction - Construction

Reconstruction from Clarence St. north approx. 300 feet

Engineer: D. W. Jessen & Associates, L.L.C.
Contractor: Asphalt & Associates

Preliminary Start Date: TBD
Preliminary Completion Date: TBD
Bid Award: \$145,935.00
Engineering Fee: \$10,738.00

CP3142 Sewer Pipe Bursting – Construction

Rose St. between 5th Ave. and Rose Terrace; Prien Lake Rd. from 5th Ave. East

Engineer: D. W. Jessen & Associates, L.L.C.
Contractor: Horseshoe Sub

Preliminary Start Date: July 2011
Preliminary Completion Date: November 2011
Bid Award: \$ 119,471.00
Engineering Fee: \$8,942.00

CP3127 Waste Water Treatment Plant “A” Improvements – Construction

Head works Improvements; Grit removal system rehabilitation; Concrete rehabilitation; Grating and handrail rehabilitation; Addition of a mechanical bar screen; Screenings washer press; Final Clarifier Improvements; Replace final clarifier weirs; Sludge Pumping; Replace the return and waste activated sludge (RAS / WAS) pumps and motors; Digester Improvements Rehabilitation of the exiting air system; Handrail and Grating Installation where needed;

Engineer: Manchac Consulting Group, Inc.
Contractor: Wharton Smith

Preliminary Start Date: August 2011
Preliminary Completion Date: November 2012
Bid Award: \$ 3,747,000.00
Engineering Fee: \$ 280,226.00

CP3116 Weaver Road Sidewalks- Design Phase

New concrete sidewalk paving will occur from Jeff Wood Blvd to Stoneybrook (west side only) and McNeese Street to Sale Road (east side only).

Engineer: D. W. Jessen & Associates, L.L.C.
Contractor: Asphalt & Associates

Preliminary Start Date: July 11
Preliminary Completion Date: November 2011
Bid Award: \$320,799.00
Engineering Fees: \$ 27,237.00

CP3116 Riverside Dr, Barbe Street, etc Sidewalks-Design Phase

Install new concrete sidewalks in the following areas:

1. Riverside Dr (West Sallier Street to Shell Beach Drive)-(east side)
2. Barbe Street (West Sallier Street to Shell Beach Drive)-(east side)

Engineer: Lancon Engineers, Inc.

Preliminary Start Date: TBD
Preliminary Completion Date: TBD
Funds Available for Construction (AFC): \$ 265,000.00
Engineering Fees: \$ 22,844.00
Estimate cost: \$256,275.00

CP3143 3rd Ave at 3rd Street-lift station rehab - Design Phase

Rehabilitation of the existing sewer lift station at the intersection of 3rd St. and Third Ave.
Engineer: D. W. Jessen & Associates, L.L.C.

Preliminary Start Date: TBD
Preliminary Completion Date: TBD
Funds Available for Construction (AFC): \$225,000.00
Engineering Fees: \$19,653.00
