

Dear Members of the Community,

The Millennium Park Community Build was an extraordinary team effort. Everyone pulled together, followed through, and did more than we could ever have imagined. The children of our community are the real beneficiaries of your hard work.

In the years to come your effort will be repaid with the smiles, laughter, and joy of our children. If you didn't see the KPLC news last night, check the Millennium Park report on the web page...you can already hear them.

Thank you for contributing to this great success story. We could not have built this park without each of you.

With best regards,

Randy Roach
